this editorial book is designed by harsh vedani as his graduation project, 2022.

walking on the road of creativity

threedot designs is where innovation and visualization begins for everyone! we are an independent graphic and branding agency fulfilling clients' needs and requirements. three dot designs has the potential to imagine, create and implement with its core philosophy of listen, design and deliver. our attention goes towards the brand's essence and values, to understand them clearly and shoot up them with designs.

we believe to work beyond normal eyesight, by symbolising creativity and integrity with expertise. with an unparalleled excel in innovative thinking, three dot designs provides consistency of fresh thoughts and unequalled ideas.

**digital media
can easily
connect to

help you build
a community
around your
brand.**

the future of business

digital media is any form of media that uses electronic devices for distribution. this form of media can be created, viewed, modified and distributed via electronic devices. digital media is commonly used software, video games, videos, websites, social media, and online advertising.

even though digital media is part of our everyday culture, business owners still find themselves uncomfortable with replacing their paper advertising with internet marketing services. it changes the way we educate, entertain, publish and interact with one another on a daily basis. and, as a result of this influence, digital media pushes the business world out of the industrial age and into the information age. as social media's role in our day-to-day life continues to grow, so do the opportunities for businesses to connect to consumers. using digital media, a brand can reach larger audience in a way that is both measurable and cost-effective. analytics-driven digital media provides the opportunity to reach more consumers for less money than traditional marketing methods while getting to know your customer base, thus increasing brand loyalty.

About DPC

Design & Planning Counsel (DPC) is Ahmedabad based professional service organisation for excellence in City Planning and Built Environment.

What We Believe In
 DPC believes that challenges of developing high quality cities and built environment can be addressed more effectively by integrating the disciplines of Planning, Urban Design, Architecture and Engineering. Research plays an intrinsic part of the practice for developing contextual and progressive solutions. We also believe in a collaborative approach between project stakeholders and professionals for effective and long lasting associations.

Our Approach
 We corroborate our belief by providing professional services that are well organised, and respond to the time, resources and aspirations of the stakeholders. We plan and design solutions that address immediate challenges while keeping in mind the needs of the future. Our designs are inclusive, functional, and well-engineered.

What We Offer
 We offer professional services in the interrelated disciplines of Urban Planning, Environment Design, and Architecture across the Indian subcontinent by integrating our designs through Practice and Applied Research.

Panoramic Elevator

The Trans500 Panoramic Elevator is a jewel worthy of prestigious buildings. Its design and features aim for optimum travel comfort. ORBIS has years of specialized knowledge in capsule elevators and so it offers a wide range with ultramodern designs. Trans 500 Panoramic elevators come with speeds upto 2.5 mps along with capacities of upto a whopping 26 persons

Its technical prowess lends to a silent and reliable operation while the VVVF microprocessor based controller provides a smooth and jerk free run and landing. Oil buffer and roller guide shoe give vibration-free travel while aesthetic interiors like a panoramic glass viewing panel makes it visual hit.

reflection of brand

the design reflects the brand identity and brand ideology well. it makes easy to attract potential clients, customers or users.

<http://www.treatair.com/>

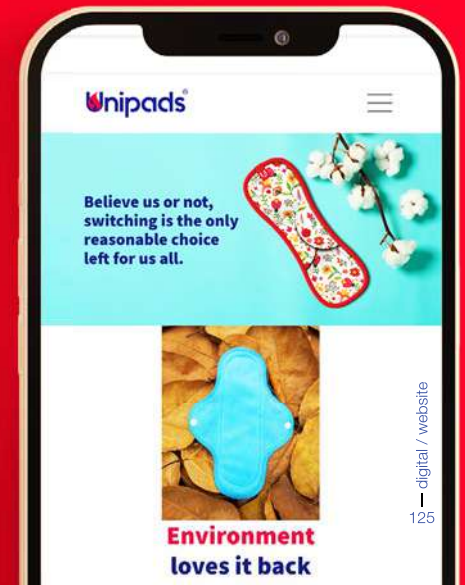

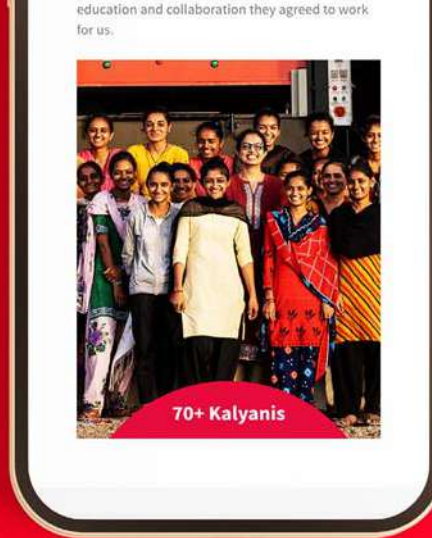

gradient for trident

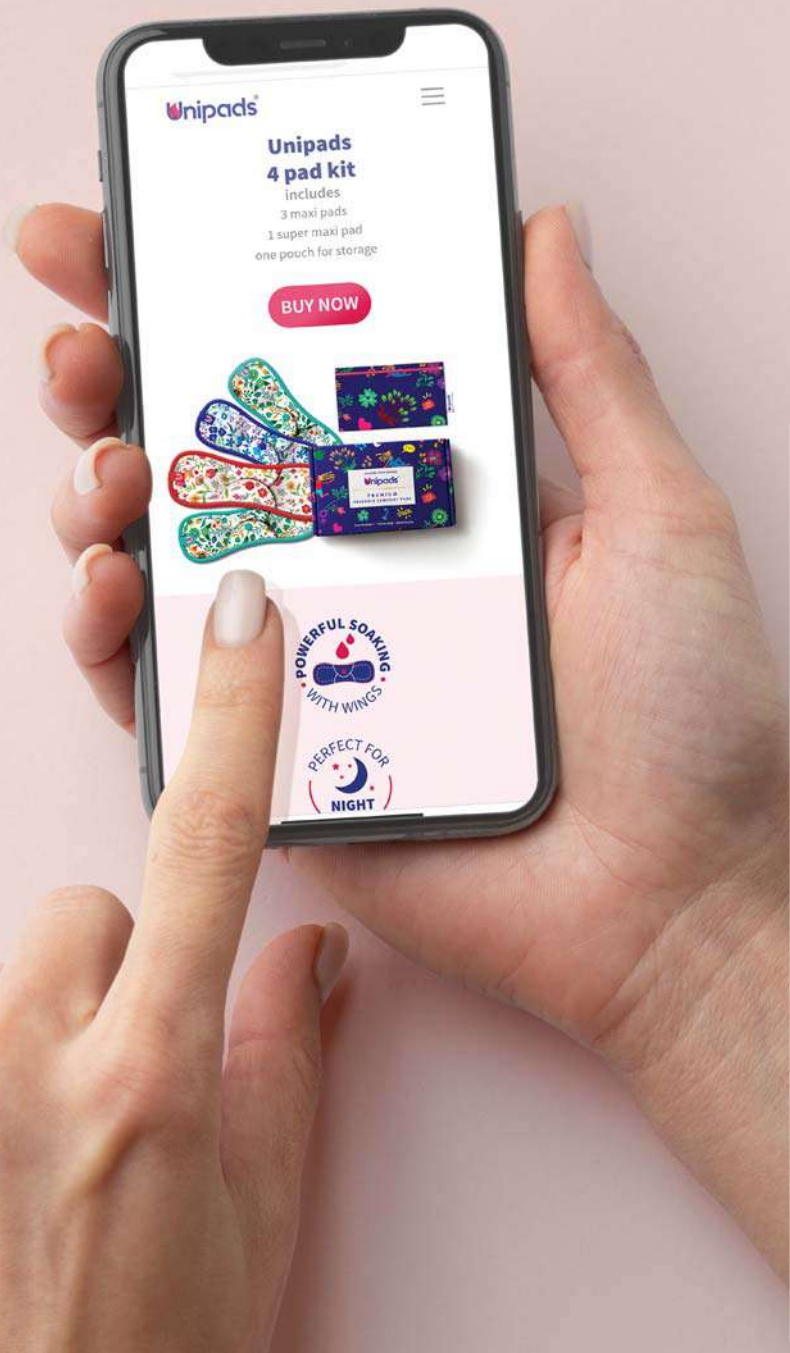

www.tridentin.com

decent website design is interesting to follow, more imagery can make it more fun and interactive.

the design is balanced, taking the help of pictures and texts to make it balanced and interesting for the reader.

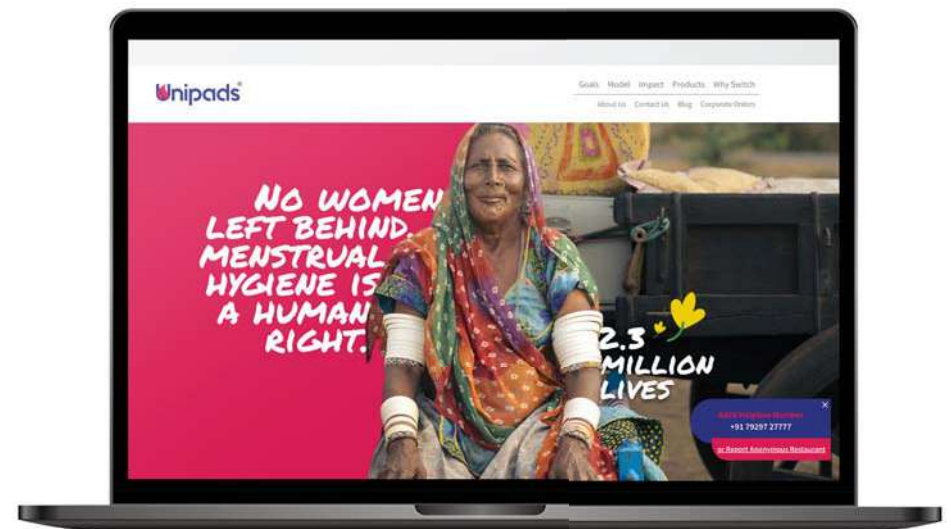

all pictures used in a website have a similar theme, tone and language. the color theme enhances that the product is for women's use.

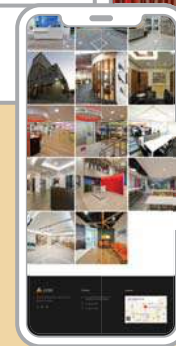

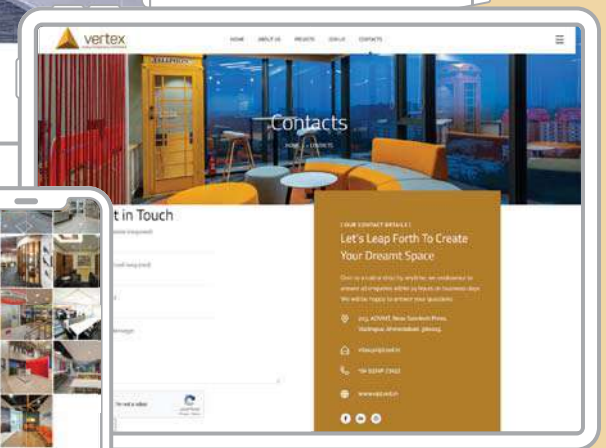

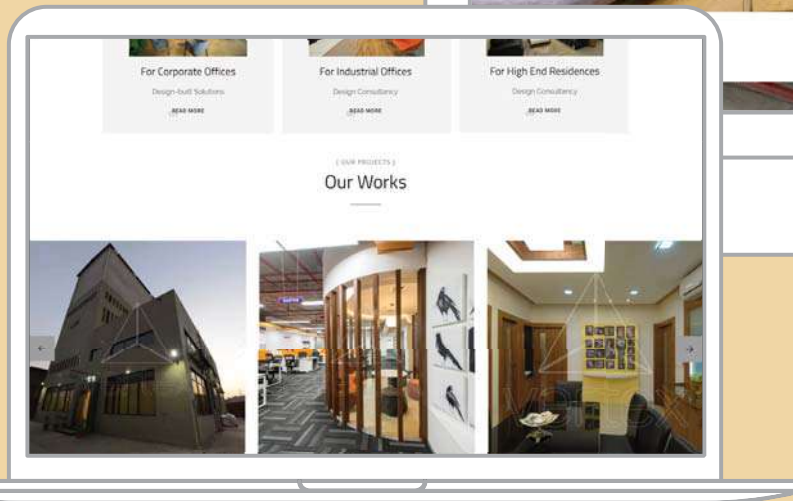

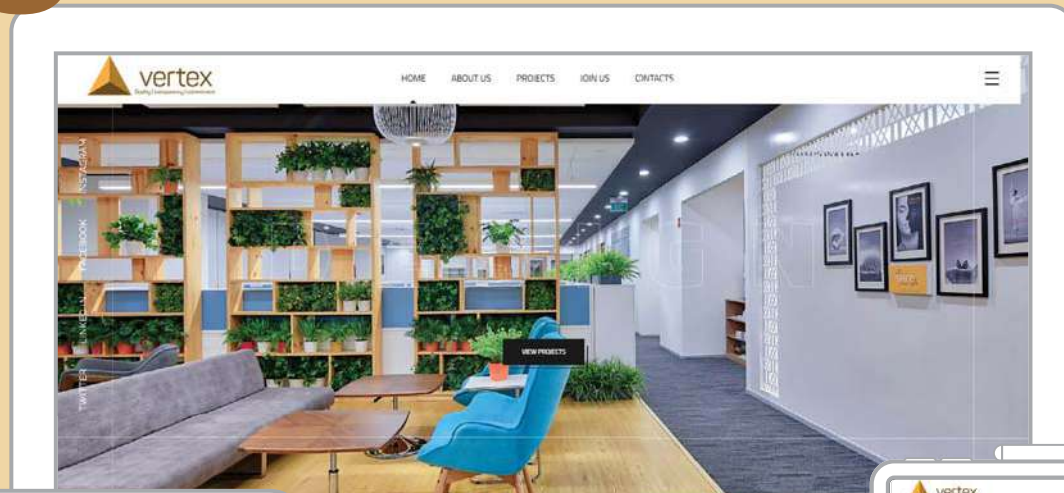

hygienic touch

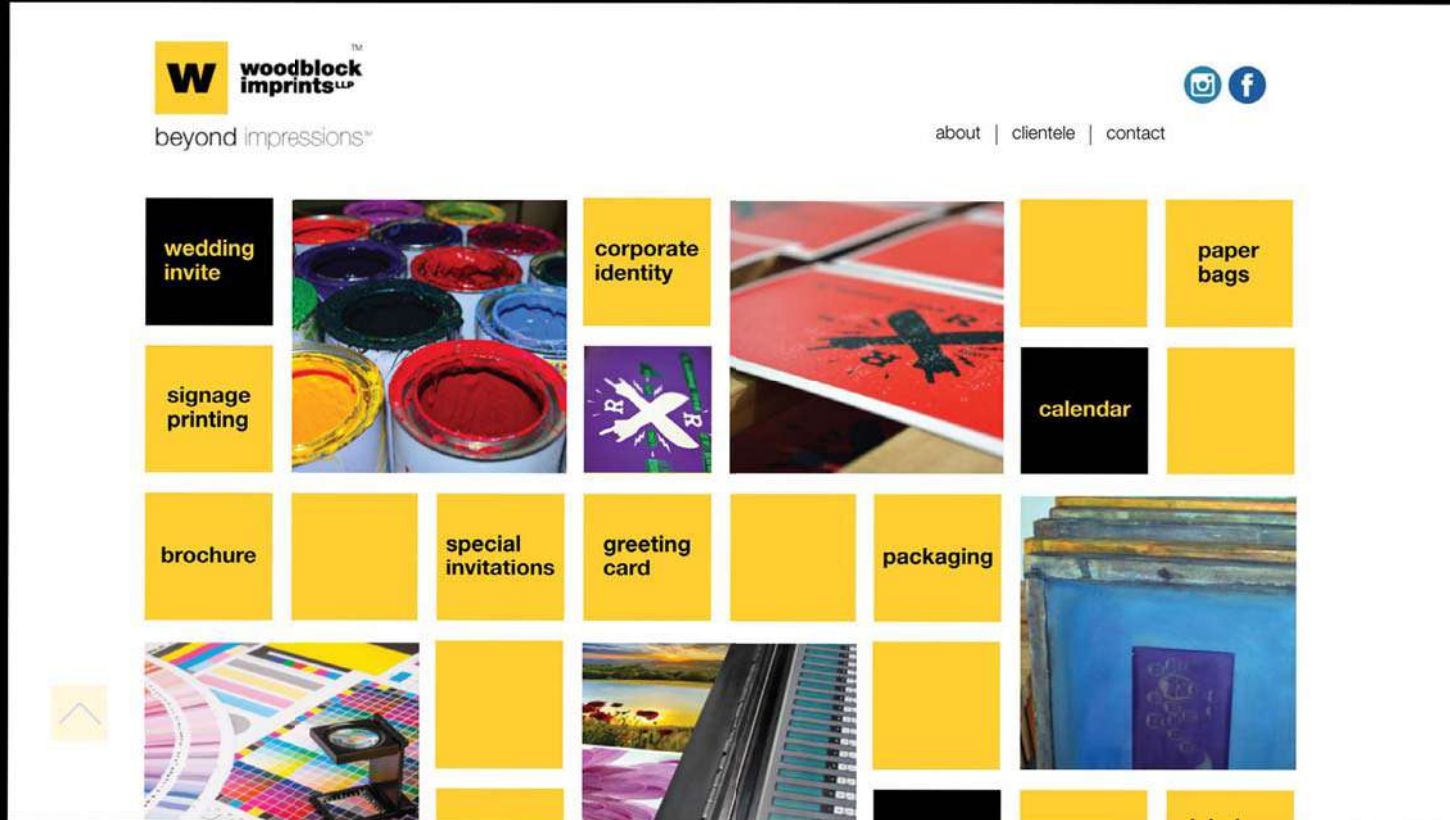

vectors, doodles, images all are taken in design, so it can communicate easily. it is designed by keeping in mind all target audiences.

<https://unipads.in/home>

360° designs

social media design is visual content used in digital marketing. whether it's your facebook profile, twitter background, google+ header or graphics for timeline posts and blogs, social media design is an important element to incorporate. effective graphic design for social media provides support towards brand recognition and connects your target audience with your business and services. getting visual on social media can increase brand awareness and the most important, grow your follower's engagement. digital marketing is considerably less expensive than other marketing methods. digital advertising creates powerful opportunities to tell brand stories at scale and context.

web designing is the creation of websites and pages to reflect a company's brand and information and ensure a user-friendly experience. appearance, for instance, relates to the colors, font and images used. layout refers to how information is structured and categorized. a good web design is easy to use, aesthetically pleasing and suits the user group and brand of the website. as the keystone of a web designer's output is a site that wins and fosters the trust of the target audience, removing as many potential points of user frustration as possible is a critical consideration.

thank you
