50+ projects

walking on the road of creativity

three dot designs is where innovation and visualisation begins for everyone! we are an independent graphic and branding agency, fulfilling clients' needs and requirements. three dot designs has the potential to imagine, create and implement with its core philosophy of listen, design and deliver. our attention goes towards the brand's essence and values, to understand them clearly and to shoot them up with designs.

we believe in working beyond the normal eyesight by symbolising creativity and integrity with expertise. in an unparalleled way, three dot designs provides consistency of fresh thoughts and unequalled ideas.

**graphics that
complement the
surroundings**

outdoor graphic designs transform ordinary spaces into extraordinary experiences

outdoor graphic design refers to the use of visual elements and graphics in outdoor environments to convey information, enhance aesthetics and communicate messages. it involves the creation & placement of graphics, signages and other visual elements in outdoor spaces such as billboards, building facades, street signs and public areas.

we design outdoor graphics which help in enhancing aesthetics, convey information and communicate messages. we serve graphics, signages, and other visual elements in outdoor spaces such as billboards, building facades, street signs, hoardings, backlit, etc.

to ensure the successful planning and execution of outdoor design projects, we first understand the specific requirements, goals and budget of the clients. this involves discussing the desired outcomes, target audience, and any unique considerations. based on the client's requirements and the site analysis, we develop design concepts and campaigns.

signages

signage design plays a crucial role in outdoor graphic design. it involves creating visually appealing and informative signs that effectively communicate messages and guide people in various environments.

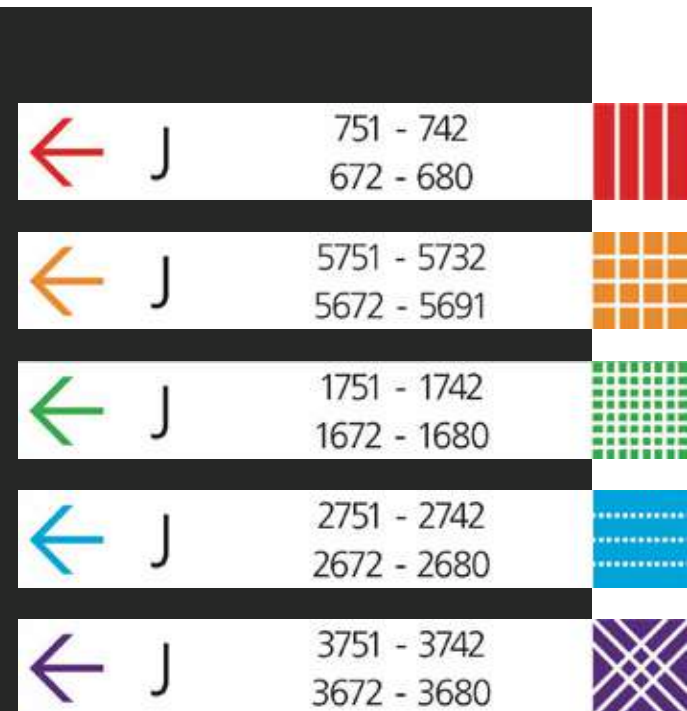

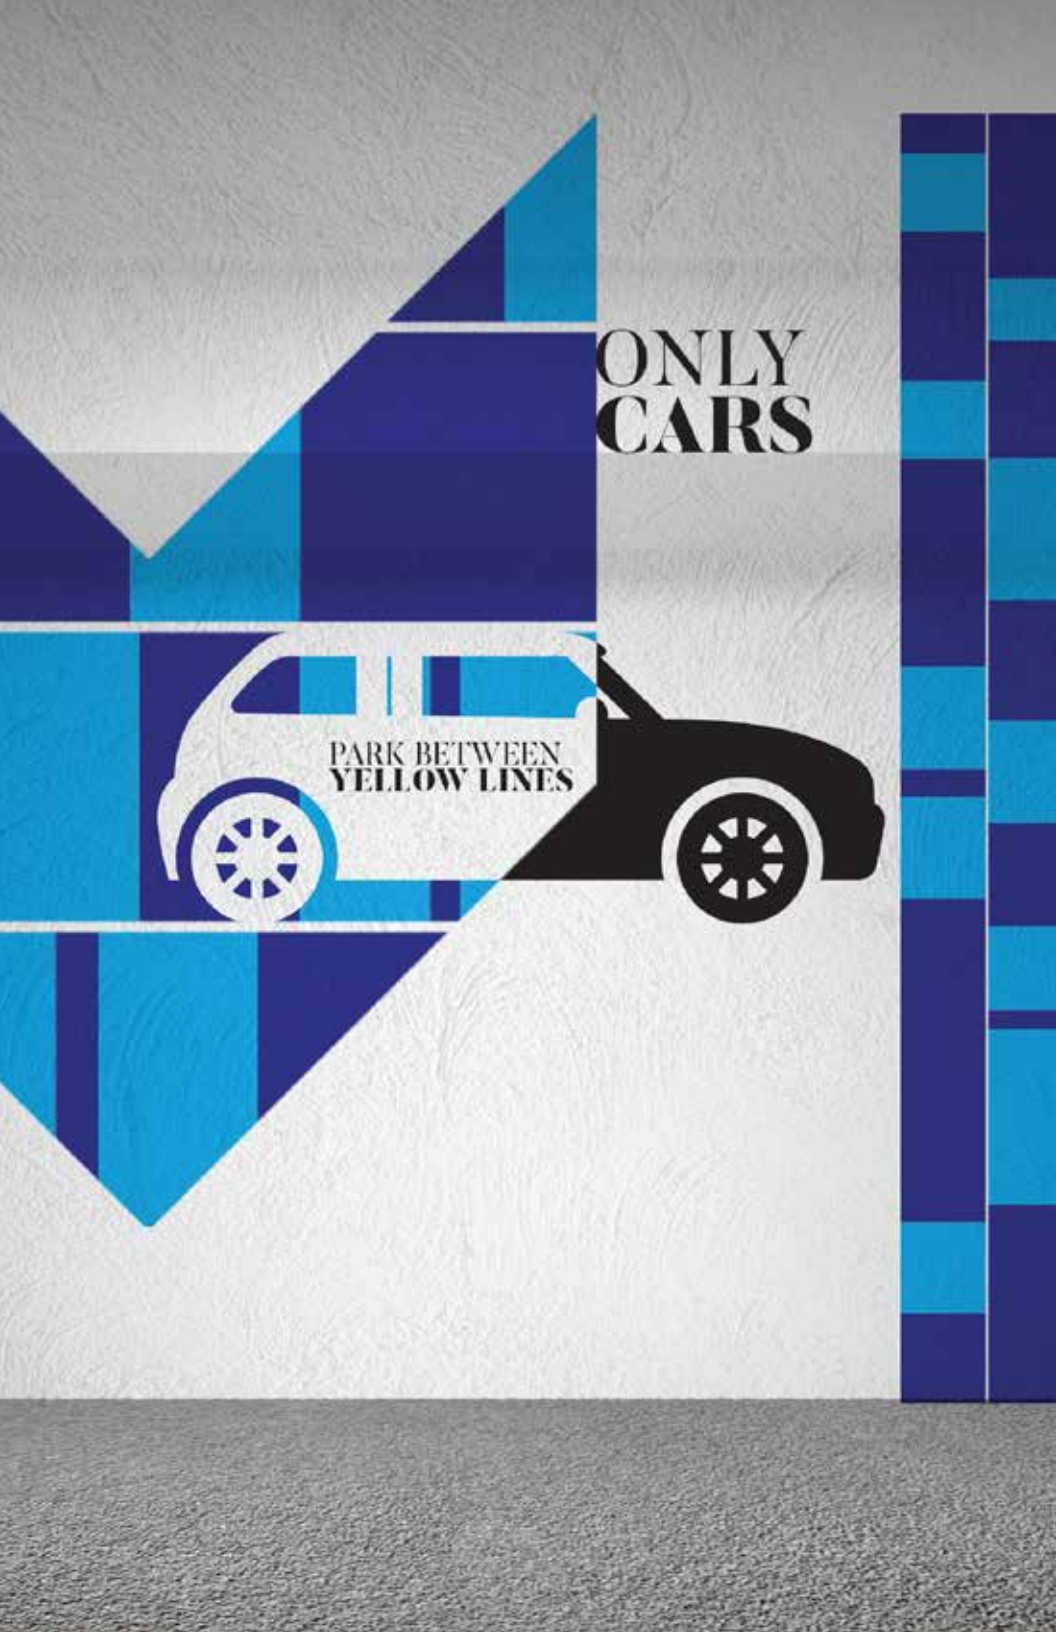

globale textile market

the textile industry in surat is mainly engaged in yarn production, weaving, processing as well as embroidery. hence the floors of the globale textile market are named accordingly from the ground floor to the third floor, in the manner given below.

-  ground floor yarn / धागा
-  upper floor weave / बुनना
-  first floor cloth / कपड़ा
-  second floor stitch / सिलाई
-  third floor fashion / फैशन

outdoor design encompasses a range of elements and considerations, including landscaping, hardscaping, outdoor graphic design, signage design, environmental graphics, event and exhibition design and campaigns. it aims to create aesthetically pleasing and functional outdoor spaces that enhance the overall experience for individuals, whether it be in public areas, commercial settings, or events. outdoor design not only beautifies the surroundings, but also serves practical purposes such as wayfinding, branding, and communication. by carefully planning and implementing outdoor design strategies, businesses, organisations and individuals can create visually engaging and memorable environments that leave a lasting impression on the visitors.

we, as an agency, offer a wide range of services, including market research, brand development, creative concept development, graphic design, copywriting, media planning and buying, digital marketing, social media management, public relations and detailed campaign analysis. our creative professionals such as art directors, copywriters, designers, and strategists, work together to develop effective advertising and branding strategies that align with the client's objectives.
